Office of the City Administrator

PUBLIC WELFARE COMMITTEE

Tuesday, February 8, 2022

5:45 PM

Lower Conference Room

Minutes

1) Call to Order, Roll Call

Present:

Chair Mark Gierl
Alderman Glenn Bushee
Alderman Kathleen Schneider

Also Present: City Attorney Sajdak, Assistant City Administrator Schoenemann, and Executive Assistant Enea

2) Approval of Meeting Minutes

a. January Meeting Minutes

RESULT: **Approved by Voice Acclamation [Unanimous]**

MOVED BY: Alderman Bushee

SECONDED BY: Alderman Schneider

AYES: Gierl, Bushee, Schneider

3) Ordinances

Action requested: review and recommend approval

a. **ORDINANCE 2022-1618** An Ordinance Creating Section 10-26 of the Mequon Municipal Code, Related to Residential Swimming Pools

City Attorney Sajdak briefly explained the changes that were made. To address teenagers supervising, the code was changed to include a definition of responsible individuals to be 15 years of age or older. Also, the person supervising needed to be within 15 feet of the pool.

RESULT: **Approved by Voice Acclamation [2 to 1]**

MOVED BY: Alderman Bushee

SECONDED BY: Alderman Gierl

AYES: Gierl, Bushee
NAYS: Schneider

4) Work Calendar

- (1) The Architectural Board
- (2) Bee City

5) Adjourn

Alderwoman Schneider moved to adjourn at 5:50 P.M. Alderman Bushee seconded.

Respectfully Submitted,

Carrie Enea
Executive Assistant

Office of Administration

TO: Public Welfare Committee
FROM: Carrie Enea,
DATE: February 28, 2022
SUBJECT: RESOLUTION 3918 A Resolution Designating Mequon, Wisconsin as a Bee City USA

Background

The Mequon Nature Preserve, on behalf of the City of Mequon, is working on renewing the Bee City USA application for 2022. The City was first designated as a Bee City upon Common Council approval of Resolution 3370 on April 12, 2016. The 2022 renewal process requires a resolution be adopted by the Common Council. A draft resolution is attached, and it should be noted that the resolution was prepared in accord with Bee City USA guidelines; hence there is a significant amount of required text.

Analysis

In 2006 when honeybee colonies started disappearing, later dubbed “Colony Collapse Disorder,” beekeepers and non-beekeepers alike became very concerned. After all, one in every three bites of food that is consumed is courtesy of insect pollination. Equally important, 85% of flowering plants and trees rely on pollinators for the survival of their species. While less is known about native bees and other pollinators, entire species are disappearing as they battle most of the same enemies as honeybees - loss of habitat essential for food and shelter, inappropriate pesticide use, diseases, and parasites.

Launched in 2012, the Bee City USA program endorses a set of commitments, defined in a resolution, for creating sustainable habitats for pollinators, which are vital to feeding the planet. Cities, towns, and communities across America are invited to make these commitments and become certified as a Bee City USA affiliate.

Fiscal Impact

The Mequon Nature Preserve staff will take the lead on any associated activities and publicity efforts. The application renewal fee of \$200, which is based on the population size of Mequon, is paid for by the Mequon Nature Preserve.

Recommendation

City staff recommends that the Public Welfare Committee and the Common Council approve the proposed resolution as attached.

COMMON COUNCIL
OF THE
CITY OF MEQUON

RESOLUTION 3918

A Resolution Designating Mequon, Wisconsin as a Bee City USA

RECITALS

A. The goal of the BEE CITY USA program is to promote healthy, sustainable habitats and communities for bees and other pollinators.

B. Thanks to the tremendous diversity of wild native bees, along with honeybees that were brought here from Europe in the 1700s, we have very diverse dietary choices rich in fruits, nuts, and vegetables.

C. Bees and other pollinators around the globe have experienced dramatic declines due to a combination of habitat loss, use of pesticides, and the spread of pests and diseases, with grave implications for the future health of flora and fauna.

D. Communities have the opportunity to support bees and other pollinators on both public and private land.

E. Supporting pollinators fosters environmental awareness and sustainability and increases interactions among community stewards such as commercial and backyard beekeepers, farmers, children, educators, Master Naturalists, Master Gardeners, plant nurseries, municipalities, neighborhoods, and garden suppliers and clubs.

F. The economic benefits of (native and honey) bee-friendliness include:

- Healthy ecosystems - insect pollinators are required for pollination and reproduction of about 85% of flowering plants globally, plants that: 1) are vital for clean air and water; 2) provide food, fiber and shelter for people and wildlife; and 3) support the very insects that pollinate crops and form the basis of food webs.
- Increased vegetable and fruit crop yields due to bee pollination.
- Increased habitat for natural enemies of crop pests and therefore reduced need for and costs associated with pesticides.
- Increased demand for pollinator-friendly plant materials from local nurseries and growers.
- Income earned by beekeepers and others through the sale of bee products, beekeeping equipment and supplies, and hive rentals for pollination; and, heightened prestige and premium asking prices for place-based honey, which enhances the visibility and reputation of its community of origin.

G. Mequon, Wisconsin should be certified a BEE CITY USA community because:

- Community interest in supporting sustainable habitats for bees and other pollinators has grown as the decline in pollinator populations and habitat has received greater local and national media attention.
- The Mequon Nature Preserve has become a trusted community resource and facilitator of honeybee education.
- Resident participation in the local bee club sponsored by the Mequon Nature Preserve has increased steadily, demonstrating the community's growing desire to learn about bees and share experiences.

H. Ideal pollinator-friendly habitats:

- Provide diverse and abundant nectar and pollen from plants blooming in succession.
- Provide clean water for drinking, nest-building, cooling, diluting stored honey, and butterfly puddling.
- Are pesticide-free or have pesticide use carried out in a manner to minimize effects on pollinators.
- Are comprised of mostly, if not all, native species of annual and perennial wildflowers, shrubs, trees, and grasses because many native pollinators prefer or depend on the native plants with which they co-evolved.
- Include, where possible, designated pollinator zones in public spaces with signage to educate the public and build awareness.
- Provide for safe and humane removal of bees when required.
- Provide undisturbed spaces (leaf and brush piles, un-mowed fields, or field margins, fallen tree and other dead wood) for nesting and overwintering for native pollinators.

I. In order to enhance understanding among local government staff and the public about the vital role that pollinators play and what each of us can do to sustain them, Mequon, Wisconsin agrees to meet the following commitments required of all BEE CITY USA communities:

1. Pass this BEE CITY USA resolution (which articulates these commitments).
2. The Mequon Nature Preserve is hereby designated as the Bee City USA sponsor and Kristin Gies, Executive Director, as the Bee City USA "liaison" to encourage and coordinate local pollinator habitat and awareness activities. This body will serve as the intermediary between the citizenry and local government on matters of enhancing pollinator awareness, health, and habitat, fulfilling the following commitments:
 - a. Annually celebrate National Pollinator Week (third full week of June) or some other appropriate occasion with educational events, pollinator habitat plantings or restoration, proclamations or

promotions that showcase the municipality's commitment to enhancing pollinator health and habitat.

- b. Annually apply for renewal of the community's designation and submit a report of the previous year's BEE CITY USA activities following the format provided.

3. Publicly acknowledge the community's commitment by agreeing to:

- a. install/maintain at least one authorized BEE CITY USA street sign in a prominent location.
- b. create/maintain links on appropriate pages of the local government's website which includes, at minimum, links to a PDF of this signed Resolution and the national BEE CITY USA website, contact information for the local government's BEE CITY USA liaison and designated "facilitator commission or non-profit organization committee," and reports of the pollinator-friendly activities the community has accomplished the previous year(s).

BASED UPON THE FOREGOING RECITALS, IT IS RESOLVED by the Common Council of the City of Mequon, Wisconsin that the Mequon Nature Preserve is authorized to submit an application to Bee City USA on behalf of the City of Mequon to obtain a "Bee City" designation and commits to the standards of Bee City USA.

Approved by: John Wirth, Mayor

Date Approved: March 8, 2022

I certify that the foregoing Resolution was adopted by the Common Council of the City of Mequon, Wisconsin, at a meeting held on March 8, 2022.

Caroline Fochs, City Clerk

TO: Public Welfare Committee
FROM: Mike Hadley,
DATE: March 8, 2022
SUBJECT: Architectural Review Board Regulations

Background First steps have been taken to change the Architectural Review Board Membership. Our next step is to address the review standards.

Analysis Staff reached out to the Architectural Board Chairperson and members about operations and processes, staff also solicited interest from builders to help assess opportunities for improvement.

Known Issues / Constraints

1. Builders and homeowners have raised issues centered on the extent in which design standards are applied such as:
 - Adding grids in large picture viewing windows and patio doors.
 - Requiring windows on accessory storage facilities and an inconsistent approach in application of stone on the accessory structures.
 - Requiring the window's opening style to be consistent throughout the home.
 - Requiring installation of stone on all four sides of a home can result in minimum stone on a focal point or no stone.
 - Carports are allowed by municipal code Section 58-247 (b), past scenarios have required major modifications in order for them to meet the guidelines. Carports should not be required to conform to the guidelines. By their very nature they are a manufactured product and should not be required to be modified to look like the house. Zoning will continue to enforce setbacks and lot coverage requirements for these projects.

These appear to be examples of a strict adherence to design consistency.

2. Timing and costs of the process causes applicants to reduce the size of their project or cancel it altogether.

Regulatory The City of Mequon municipal ordinances and guidelines pertaining to Architectural Review Board are included. Staff notes that Sections 10-56, 58-40, and 58-566, do not state a requirement that the structure size of 150 square feet or larger for an accessory structure must be submitted for Architectural Board approval. This dimensional standard is only mentioned in Section 58-171 – Use Regulations and states the Department of Community Development has the authority to approve structures less than 150 square feet. Staff recommends changing the current size used to determine an Architectural Board Review.

Staff Summary Staff will assess the Board's procedures and will begin policy work after input from Public Welfare Committee on these topics as well as any other topics raised by the committee or public.

Sec. 10-56. Architectural board.

No permit shall be issued for the erection, remodeling, or placement within the City of Mequon of any building until the approval of the architectural board has been obtained and such approval plans are received by the building inspector review and approval of the architectural board shall be in lieu of the review and approval required by the planning commission in section 30.07(7) of the Wisconsin uniform building code.

(Code 1957, § 5.02(3); Ord. No. 2008-1238, § I, 4-8-2008)

Sec. 58-40. Architectural board.

- (a) *Purpose.* In order to promote the general welfare, good order and prosperity of the city and to ensure that the physical environment of the city be developed in such a manner as will provide for the maximum degree of aesthetic satisfaction through the preservation and enhancement of the natural and architectural beauty of the city, the city has deemed it necessary to regulate the architecture and appearance of buildings or structures which are constructed, altered, relocated, added to, remodeled or placed within the city. The architectural board (referred to in this section as the board) has been created for the purposes of exercising the powers and performing the duties described in this section. The board is created pursuant to chapter 2, article IX. The creation of the board is not intended to impose a pattern of regimented style or to promote a given architectural style; but is intended to provide for the harmonious and aesthetically pleasing development of the city in such a way as will promote and enhance the value of existing single-family and plex residential structures and buildings and to prevent the construction, alteration or remodeling of single-family and plex residential structures or buildings which would be inconsistent in terms of style, design, size, location orientation and/or materials presently existing within close proximity to the proposed building or structure.
- (b) *Covenants and restrictions.* The city recognizes the existence of private covenants and restrictions which may govern the building, construction or alteration of buildings and structures located within the city. The city further recognizes that such private covenants and restrictions may run with the land and bind all owners of property subjected to such covenants and restrictions. While the city recognizes the existence of such covenants and restrictions, the city has deemed it improper and imprudent to assume the responsibility for the enforcement of the covenants and restrictions, deeming enforcement to be properly determined between private property owners.
 - (1) Notwithstanding the foregoing, the city has deemed it appropriate to adopt procedures which provide for the recognition of such covenants and restrictions.
 - (2) Where lands within a development or subdivision in the city shall be subject to private covenants and restrictions governing their use or development, the developer or architectural committee of the development or subdivision may register with the board. As part of any such registration, the board shall be provided with a true and correct copy of the covenants and restrictions bearing evidence that they have duly recorded in the office of the Register of Deeds for Ozaukee County. The registration shall include a plat of the development and/or subdivision and a current and accurate mailing address and telephone number through which all notices relating to this division shall be given. The information in the registration shall be periodically updated such that the board shall at all times have current information related to the developer and/or architectural committee.

- (3) After the developer or architectural committee has properly registered with the board, the board shall provide written notification, as described in the registration, when a building permit has been applied for on lands which are subject to the private covenants and restrictions. Within 14 days of the mailing of such notice by the board, the developer or architectural committee shall provide written notice to the board that the proposed plan has either been approved or disapproved by the developer or architectural committee. The board shall not rule upon any plan for construction or alteration of any building or structure until the expiration of the 14-day period.
- (4) Where disapproval of the plan by the developer and/or architectural committee is noted, the developer and/or architectural committee shall provide the board, in writing and with specificity, the reason(s) for the disapproval and the manner in which the developer and/or architectural committee has deemed that the proposed building, structure and/or alteration fails to conform with the private covenants and restrictions. It is specifically understood that neither the approval nor disapproval of any building, structure and/or alteration by the developer and/or architectural committee arising from private covenants and restrictions

shall in any manner bind the board but shall only be advisory in nature. Irrespective of the approval or disapproval of the developer and/or architectural committee, the board shall approve or disapprove the proposed building, structure, or alteration in conformance with its charge and with this section.

- (c) *Standards.* In determining and assessing the appropriateness of any building or structure, the board shall be guided by the standards set forth in section 58-566, as well as the following standards, and in order to inform and educate the public in their application, shall promulgate interpretive guidelines, which shall be reviewed and approved by the common council, to assist in their implementation:
 - (1) No building, structure or alteration shall be permitted the exterior design, style, size, or materials of which shall be inconsistent in relation to the surroundings (both in terms of natural surroundings and existing building or structures), such that the building and/or structure would result in an inharmonious and/or haphazard development of the area.
 - (2) No building, structure or alteration shall be permitted the design, materials, style, or exterior appearance of which is so identical with those adjoining as to create excessive monotony and drabness.
 - (3) No building, structure or alteration shall be permitted where any proposed facade or roof is constructed or faced with a finished material which is aesthetically incompatible with other facades or roofs of surrounding properties, such that the unattractive appearance is presented to the public and surrounding properties.
 - (4) The board recognizes the value of natural beauty, including but not limited to trees, plants, and other natural features of the landscape. No building shall be permitted to be sited on a property in a manner which would unnecessarily destroy or damage or impair the natural beauty of the area, such that the same would adversely affect or impact values incident to ownership of that in that area of which would unreasonably affect or adversely impact the beauty and general enjoyment of existing residences or adjoining properties.
 - (5) The board may consider the approval or disapproval of the developer and/or architectural committee or a development or subdivision, along with the foregoing factors, in assessing the appropriateness of a proposed building, structure or alteration.
 - (6) Board approval expires after one year. No single-family or plex residential building or structure, or alteration to such building or structure, shall be permitted in a PUD (planned unit development) zoning district, if the proposed design, style, size, building materials or coloration of building materials to be incorporated into the exterior of such building or structure have materially changed from the design, style, size, building materials or coloration of building materials previously approved and adopted as part of the PUD (planned unit development) zoning ordinance, unless such proposed changes are first reviewed and approved by the planning commission and common council as part of the process of amending the PUD ordinance governing the development.
 - (7) The board shall follow the design standards identified in the city publication entitled "Mequon Architectural Guidelines for Residential Structures," or any replacement of those guidelines, available from the building division.

- (d) *Records.* The board shall keep records of all its proceedings and its decisions shall be stated in writing including the specific reasons for refusing a permit or for any conditions of approval.
- (e) *Enforcement.* To ensure that no proposed single-family or plex residential building would be in conflict with the provisions of this section, the building division shall submit to the board the plans for such building, including adequate elevations or perspective sketches to enable the board to judge the building appearance, and shall not issue a building permit until the board has approved such plans.
- (f) *Appeal.* Any person aggrieved by a decision of the board shall have the right to appeal such decision to the board of appeals provided such appeal is filed with the city clerk within seven working days after a board decision.
- (g) *Rehearing.* No rehearing shall be held except:
 - (1) By the affirmative vote of four or more members of the board upon its finding that substantial new, relevant evidence has been submitted which could not reasonably have been presented at the previous hearing; or
 - (2) If the matter has been remanded by the board of appeals because the board of appeals has found that an aggrieved party has offered or requested leave to offer substantial new, relevant evidence which could not reasonably have been presented at the previous hearing before the board.

A request for rehearing under section (g)(1) shall be in writing and shall recite the reasons for the request, including the substantial new, relevant evidence being offered, and the reasons for which it could not have reasonably been presented to the board at the first hearing.

(Code 1957, § 3.19(4); Ord. No. 87-624, 4-14-1987; Ord. No. 96-490, 6-25-1996; Ord. No. 96-890, 6-25-1996; Ord. No. 97-934, 1-13-1998; Ord. No. 2001-1015, §§ I, II, 6-12-2001; Ord. No. 2003-1063, § I, 4-8-2003; Ord. No. 2003-1067, § I, 7-18-2003; Ord. No. 2003-1070, § I, 7-8-2003; Ord. No. 2008-1238, § I, 4-8-2008; Ord. No. 2017-1506, § I(Exh. A), 10-10-2017)

Sec. 58-566. Architectural requirements and standards.

- (a) *Criteria and processing requirements.* To implement the purposes set forth in section 58-562 and in accordance with the findings represented in this section, the following architectural review criteria and processing requirements are established:
 - (1) *Building scale and mass.* The relative proportion of a building to its neighboring existing buildings, to pedestrians or observers or to other existing buildings shall be maintained or enhanced when new buildings are built or when existing buildings are remodeled or altered.
 - (2) *Building roof lines and roof shapes.* The visual continuity of roofs and their contributing elements (parapet walls, coping, cornices, etc.) shall be maintained in building development or redevelopment. Heating, ventilation, air conditioning and other rooftop mechanical equipment must be appropriately screened from view.
 - (3) *Materials.* Material selection for architectural design shall be based upon the prevailing material already used on existing buildings in the area. No building shall be permitted when any exposed facade is constructed or faced with a finished material which is aesthetically incompatible with other building facades in the area, and which presents an unattractive appearance to the public and surrounding properties.
 - (4) *Colors.* Since the selection of building colors has a significant aesthetic and visual impact upon the public and neighboring properties, colors shall be selected in general harmony with the existing neighborhood buildings.
 - (5) *Building location.* No commercial, industrial, institutional, or multi-family residential building shall be permitted to be sited in a manner which would unnecessarily destroy or substantially damage the beauty of the area, particularly insofar as it would adversely affect values incident to ownership of land

in the area or which would unnecessarily have an adverse effect on the beauty and general enjoyment of existing structures on adjoining properties.

- (6) *Compatibility.* No building shall be permitted the design or exterior appearance which is of such unorthodox or abnormal character in relation to the surroundings as to be unsightly or offensive to generally accepted taste. Additionally, no building shall be permitted the design or exterior appearance which is so identical with those adjoining as to create excessive monotony and drabness.
- (7) *Residential architectural review.* See section 58-40 of this chapter.
- (8) *Commercial, industrial, institutional, and multi-family residential architectural review.* The city planning commission shall be responsible and have authority to hear, review and act upon proposed commercial, industrial, and multi-family residential architectural plans. Plans shall be submitted in accordance with section 58-109 and administered by the department of community development.
- (b) *City planning commission approval.* The city planning commission shall not approve any application unless it finds by a preponderance of evidence after viewing the site plans and/or building plans that the intent and purpose of this division has been complied with. (Code 1957, § 3.14(5); Ord. No. 2001-1017, § XXVII, 5-8-2001; Ord. No. 2008-1238, § I, 4-8-2008)

Sec. 58-171. Use regulations.

- (a) *Permitted uses.* These uses are permitted by right subject to the provisions of this chapter.
- (b) *Conditional uses.* These uses are subject to planning commission approval following a determination of acceptable project impact and imposition of appropriate conditions as provided in sections 58-87—58-89 of this chapter.
- (c) *Principal uses.* These uses represent the main or primary use of property or structures as permitted by the regulations of the zoning district in which such use is located.
- (d) *Accessory uses and structures.* These subordinate uses and structures are customarily incidental to and located upon the same lot occupied by the principal use or structure. Any accessory use or structure shall conform to the established regulations of the district in which it is located except as specified below. No accessory use or structure shall be permitted that by reason of noise, dust, odor, appearance, lighting, traffic generation, or other objectionable factors creates a nuisance or a substantial adverse effect upon the property value or reasonable enjoyment of the surrounding property.
 - (1) Prior to construction of potential nuisance generating recreational facilities within a residentially zoned district, the applicant/owner must review the proposed recreational facility plans with the building inspector and director of community development. Except as otherwise regulated, the building inspector and director of community development shall determine whether the proposed recreational facility is likely to create a nuisance which would require further administrative review. Further administrative review may result in an informal meeting among city staff, adjacent property owners, and the applicant/owner to solicit comments on the proposed recreational facility. If deemed necessary by city staff, ultimate approval of the proposed recreational facility shall be subject to

conditional use grant approval by the planning commission. Provisions of this article do not apply to uses normally accessory to residential development.

- (2) In the case of an accessory structure not exceeding 150 square feet in ground area, the setback, offset, height, and open area requirements of the district in which such structure is located may be modified by the building inspector and director of community development upon submittal of structural, site, and operational plans where in the building inspector and director of community development's opinion, no adverse impact would result to surrounding properties from such modification. In granting such modification, the building inspector and director of community development may require such architectural treatment, screening by landscape or architectural means, regulation of lighting, or other measures as they deem necessary as a condition to such modification. Any such modification would be based solely on the unique merits of that particular case and would not set any precedent.

(Code 1957, § 3.03(2)(a)—(d); Ord. No. 2001-1017, § I, 5-8-2001; Ord. No. 2008-1238, § I, 4-8-2008)
