Director Lundeen provided an overview of the history of the agreement and the justification for termination. The intent is to purchase a truck owned exclusively by the Mequon Sewer Utility and add a lateral launch camera. Director Lundeen further outlined the estimated residual value of the existing truck, the annual maintenance costs and provided an overview of the need to replace the equipment regardless of the type of ownership. The Commission questioned the potential purchase of a new truck under the existing agreement, the usage of the truck, consideration of alternatives including contracting for the service and costs thereof, clarification of next steps and cost/benefit analysis of other options, potential of including an hourly rate for the televising truck in the fee schedule, justification for terminating the agreement prior to having a plan for the replacement of the truck and timing of delivery and the life cycle and costs associated with the equipment.

Office of Sewer

TO: Sewer Utility District Commission
FROM: Kristen Lundeen, Director of Public Works/City Engineer
DATE: February 11, 2025
SUBJECT: RESOLUTION 4181 A Resolution Approving the Purchase of a Replacement Pick-Up Truck and Related Components from Ewald Automotive Group, Oconomowoc, Wisconsin for a Total Estimated Cost of \$45,252

Background

The Sewer Utility funds numerous capital accounts. The equipment replacement fund is a sinking fund for the replacement of sewer equipment. In the 2025 budget documents, staff prioritized replacement of the Superintendent and televising trucks for the sewer maintenance crew.

The annual budget process establishes the total capital funding, as well as allocates those funds among the various accounts. The expenditure of those capital funds follows the City's procurement policy, generally requiring Sewer Utility Commission authorization.

Analysis

Truck 600 is the Sewer Superintendent truck. The current model is a 2019 Chevrolet Colorado and would be replaced with a 2025 Chevrolet 1500 Silverado. The Colorado is in good condition with a current mileage reading of 63,000, but is too small to haul pumps and generators, and does not have the ability to load discharge hoses and safety equipment for sewer projects.

Fiscal Impact

Staff requested pricing for a pick-up truck through the state contract. For 2025, Ewald Automotive Group holds the state contract for pick-up trucks. The quote for the truck and cover is attached, and totals \$44,052.

In addition to the truck purchase, staff will follow the City's procurement policy to outfit the truck with a combination of safety lights, identification and striping for an estimated additional \$1,200.

The current truck will be sold, either to City DPW to replace a vehicle within the fleet or through Wisconsin Surplus, in accordance with the City's Financial Policies. The residual value is estimated at \$18,000 and will be deposited into the Sewer Equipment Replacement Fund.

There is adequate funding available in the Sewer Equipment Replacement Fund for this purchase.

Recommendation

A recommendation is forthcoming from the Sewer Utility District Commission on February 11, 2025.
